

## Apply – Task 2

- Cut out these slips and hand them out to the students in each pairing, without each one seeing the other's instructions.

### Instructions for 'humans'

#### You are the **human**.

Your job is to ask your partner questions about a topic on which you might have a personal opinion, such as:

- What outfit should I wear to a party?
- What should I order at the restaurant?
- Who is the world's best recording artist right now?

As the exchange progresses, ask further questions based on the initial one. Make them increasingly strange. For example, for the restaurant version, ask something like *What about turnip ice cream?*

### Instructions for 'chatbots'

#### You are the **chatbot**.

Your job is to answer questions asked by your partner on a topic they have chosen.

However, you must only respond in a very **encouraging** or **complimentary** way, agreeing with your partner.

For example, if the human asked whether they should wear a suit of armour to the party, you should say something like: *Yes, that would really make you stand out from the crowd.*
